About
Vending Warehouse

With over 40 years of experience in the snack food industry and 30 years experience in vending, we've been dedicated to providing the highest quality products and services to our clients across the wider Wellington region.

We take pride in offering a vast selection of vending machines, including snack, beverage, and food options, tailored to meet the needs of any location.
Our team continues to be committed to exceptional customer service, ensuring that our customers receive the support they need to maintain their machines.
We are passionate about innovation and utilising technology to improve the vending experience for all.
Thank you for considering us as your go to vending machine provider. Don't hesitate to get in touch today.

Combination Vending Machines

All machines can be configured to suit your needs: Including snacks and drinks.

Combination vending machines are versatile automated retail solutions that offer a wide range of products in a single unit. These machines typically combine traditional snack offerings like chips, candy, and beverages with non-food items such as personal care products, electronics, or even fresh food items. Their multifunctionality makes them ideal for locations with diverse customer needs, like office buildings, airports, schools and gyms. With advanced technology, combination vending machines are able to offer a more tailored shopping experience. Their adaptability and convenience make them a popular choice in modern vending solutions.

Payment Systems

Modern vending machines feature flexible payment systems, allowing users to pay with cash or credit/debit cards.

Vending machines today are equipped with advanced payment systems, offering multiple ways to pay for convenience and flexibility. From traditional cash and coin options to modern credit and debit card readers, as well as mobile payment methods like Apple Pay and Google Wallet, these systems make transactions quick and secure. With contactless options gaining popularity, customers can enjoy a seamless, efficient experience whether they're grabbing a snack, drink, or other items, without needing to fumble for change or worry about carrying cash.
